

ALLOY IMAGE BOX

Custom Art - Direct Printing On Metal

Why Alloy Image Box?

It's the revolutionary new way to display your images and photos, developed by Anvy Digital. Your high definition photo is printed directly on to aluminium panel then applied with a protective UV liquid coating. The printed metal sheet is then folded into a frame. Alloy Image Box is secured neatly to the wall with concealed keyhole fixings. Lightweight and durable, many people are turning to Alloy Image Box for gift items. Be part of a revolution; turn your photos into unforgettable art that is perfect for any home or business.

Features

- Superior high definition print quality
- Water & fade resistant UV liquid coating protection
- Lightweight and durable
- Suitable for indoor and outdoor displays
- Edge colours and image wrap options
